Trisus® OneLink℠ - Medication

One System. One workflow. One High Performance solution.

Trisus OneLink – Medication brings pharmacy, 340B, and finance workflows together **Payment Center** on one connected platform.

Key Challenges

1. Increasingly complex 340B rebate workflows
2. Time-intensive manual reconciling of MFP refunds
3. Increasing manufacturer and ESP submission mandates
4. Disconnected systems and fragmented workflows resulting in missed rebates, denied claims, delayed reimbursement, and increased operational costs

The Solution

1. Payment Center centralizes financial workflows for MFP and rebate programs
2. Automated payment reconciliation, allocation, and simplified cash management
3. Full transparency and auditability across all medication reimbursement programs
4. Built on Microsoft Azure for data integrity, security, and scale
5. Integrated with Sentinel® and Sentrex® for trusted 340B and contract pharmacy data

Key Benefits

Less Manual Work
Reduce spreadsheets, reconcile faster and lower risks.

Automated Allocation
Route payments to the right GL accounts and cost centers.

Financial Visibility
See what's expected, what's received and where discrepancies exist.

Smarter Cash Management
Track payments, monitor settlements and stay in control.

Built for What's Next
Scales with 2027 MFP and 2028 Part B expansion.

Trisus OneLink - Medication with Payment Center

Rebate Management | ESP Submissions | MFP Reconciliation | Eligibility Management | Financial Management

Simplifies the complexity of pharmacy financial and 340B operations for customers by automating manufacturer submissions, MFP reconciliation, payment tracking, and emerging rebate workflows.
