

The 340B Rebate Pilot introduces new demands and responsibilities beyond the capacity of most hospital teams.

Providers have **Three Critical Decisions** about staffing and expertise - and they need answers fast:

1

Capability vs. Capacity

Even if we know what's required, do we have the bandwidth to manage it long term?

2

Training vs. Technology

Is it better to train staff from scratch, or use tools already built for compliance?

3

Confidence vs. Compliance

How do we move beyond "good enough" to a defensible, future-proof process?

You don't need to become rebate experts - but you do need a partner with experience navigating complex reimbursement challenges.

Visit our [**340B Rebate Resource Center**](#) to schedule a meeting with an expert from The Craneware Group.

About The Craneware Group

The Craneware Group, the leader in healthcare financial and operational transformation, delivers innovative solutions that drive measurable impact. Our Trisus® cloud ecosystem integrates data, value cycle intelligence, and analytics to optimize financial sustainability and strategic growth. As a trusted Microsoft partner, we provide future-ready technologies, including the Best in KLAS Trisus Chargemaster. Recognized for our industry excellence, we empower organizations with award-winning solutions to achieve financial success while improving outcomes for the communities they serve.
