

TRISUS® MEDICATION FINANCIAL MANAGEMENT

Identify Financial Opportunities. Track Financial Outcomes.

Every quarter, pharmacy teams uncover reimbursement and margin opportunities — then lose track of whether the fix actually worked. Trisus® Medication Financial Management closes that loop.

Why Financial Impact Matters

Organizations often identify opportunities to improve reimbursement and margin, but many struggle to answer critical questions:

- ✓ Did we recover the revenue?
- ✓ Is the payer now reimbursing correctly?
- ✓ Did the biosimilar conversion improve margin?
- ✓ What is the cumulative impact of our efforts?

Built for Healthcare Leaders

CFO

Demonstrate measurable financial outcomes and margin improvement.

VP Pharmacy

Identify reimbursement opportunities and validate improvement initiatives.

Revenue Cycle Leader

Track recovery efforts and monitor ongoing reimbursement performance.

NEW FEATURE

Financial Impact Tracker

Moves beyond identifying opportunities and enables teams to:

- ✓ Monitor reimbursement recovery efforts
- ✓ Track margin improvement initiatives
- ✓ Analyze financial performance trends
- ✓ Document outcomes in numerical and graphical views
- ✓ Demonstrate the value of pharmacy-led interventions

Medication Margin Recovery Workflow

Opportunity Identified

A medication reimbursement variance is detected at the HCPCS/ NDC level.

Action Taken

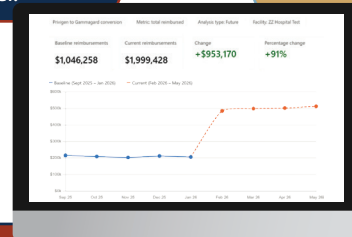

The team investigates and implements corrective action.

Outcome Quantified

Leadership gains visibility into the financial impact of the action taken.

Impact Tracked

Financial Impact Tracker monitors reimbursement changes and measures results over time.
