

Trisus® Chargemaster

Leading Healthcare Finance Transformation with AI-Driven Excellence

Microsoft
Solutions Partner

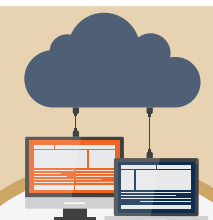

Healthcare AI
Certified software
Trisus® Chargemaster

Trisus Chargemaster, enhanced with Trisus Assist, automates chargemaster management and ensures hospitals stay compliant with the latest CMS regulations. With certified healthcare AI, it delivers real-time insights so revenue teams can manage billing data accurately and confidently.

WHY TRISUS CHARGEMASTER?

Best-in-
KLAS®
solution

Part of the Trisus cloud ecosystem, integrating data, analytics, and value cycle intelligence

Optimizes financial sustainability and strategic growth

Delivers enhanced real-time insights, empowering revenue teams with accuracy, confidence, and control

Ensures accuracy across the organization through robust pricing review and benchmarking tools

- Microsoft Partnership

1

Built with Microsoft AI technology and backed by Microsoft Azure. Attained healthcare AI designation, confirming commitment to secure and transparent AI use.
- Compliance Automation

2

Automates chargemaster integrity and supports compliance with evolving CMS guidelines. Integrates automated checks to reduce compliance errors and audit risk.
- Deep Regulatory Knowledge

3

Draws from over 10,000 pages of CMS documentation for informed decision-making with Trisus Assist.
- Integration

4

Seamless integration with Patient Account Systems (PAS) and major EHRs including Epic, Oracle (Cerner), and MEDITECH.
- Customer-centric

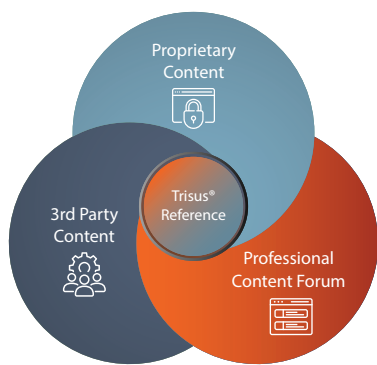

5

Actively incorporates customer feedback and completes ongoing enhancements annually to provide an accurate, comprehensive, and compliant CDM.

VALUE DIFFERENTIATORS

Trisus Assist: AI-Powered Automation

- Provides fast and accurate solutions for complex coding, compliance, and regulatory questions.
- Increases productivity and frees staff for higher-value work.

Trisus Reference: Your Online Reference Hub

- Provides interactive resources for medical necessity, compliance, and coding references.
- Integrates key data values from the Medicare Physician Fee Schedule to support physician billing.
- Allows your staff to spend more time interpreting data and less time searching for data.

CUSTOMER SUCCESS

A 250-Bed hospital in the Southeast was challenged with inaccurate CDM data, missing CPT or HCPCS codes, increasing denials and potential compliance risk.

"The OPPS Calculator has been a tremendous resource aiding our Radiology department in estimating Medicare patients' out-of-pocket expenses."

~ Radiology Department Manager
